Ashes (Words & Music by Kjetel A Idland)

Got something In your Interest
Got something for you
A mindful careless
Creep a hateful 2
Yeah You got a heartful like few

Got something In your Interest
Like no other cruel
Behind steamy windows
In the house of true
Yeah you got a heartful like few

Right now, right now
Right now, Im blowing you the ashes

Stereotyped by root
Got a hunted dreamcatch
With a mindful careless
Gonna break on through
Yeah on a wave like few

Crooked teeth on a surfboard
It’s written keep true
Post mortem hateless
Split a rotten tooth
Out of the dark came blues

Right now, right now
Right now, right now
Right now, Im blowing you the ashes

Silence as the grave
Only a moment In time
Songs of the sacrifice
Songs for the lonely heart
Silence as the grave
But only a moment In time
Only a moment In time

Play a song for the stoners
Blacker grunge for the groove
Don’t cry for dead skin
Leave It hanging on a noose
Still a heartful like few
