

Boogie Man (Words & Music by Kjetel A Idland)

Hello world ever seen trolls
Running around like Frankenstein
Better check your head under your bed
Cold stone killer
In a movie thriller

So can you name the different monsters
Running round In your head
Stuff your mouth at all cost
Before the devil knows your dead
Have you ever seen the rain shine
Temptations fills your head
So can you name the different monsters
Running around
In your head

Who killed hippie how killed slaughter
Terrorising pain fills preachersmans daughter
Who is the drifter how is the law
Who called the cops
So shut up & get stoned

So can you name the different monsters
Running round In your head
Stuff your mouth at all cause
Before the devil knows your dead
Have you ever seen the rain shine
Temptations fills your head
So can you name the different monsters
Running around

In your head

In your head

Better raise your voice
Hear you are afraid
Goddamn I see your heading down
Drop dead gorgeous coming my way
Better take cover
Demon powder

So can you name the different monsters
Running round In your head
Stuff your mouth at all cause
Before the devil knows your dead
Have you ever seen the rain shine
Temptations fills your head
So can you name the different monsters
Running around
In your head

In your head
