

Fear No Evil (Words & Music by Kjetel A Idland)

For every day we spend alone
We fight right back
For every day every moment alone
We climb the stairs

For every day you spent alone
And what I feel for you
For everyone every moment alone
We climb the stairs
Towards the light and fight

Never give up
Never back down
Trust your self
Keep your reality
Shivers In the streets telling you how to feel
Trick or treat
Trick or treat

And every time I sing to you
I sing from the heart
United, no longer apart
And the look In your eyes will no longer loose hope
Them dirty arrows fought back with some joy
As the earth hides you blood
Immortality of your personalities
In your conscious minds
Whispering voice turns cold

Never give up
Never back down
Trust your self
Keep your reality
Shivers In the streets telling you how to feel
Trick or treat
It will make you suffer

Never give up
Never back down
Trust your self
Keep your reality
Shivers In the streets telling you how to feel
Trick or treat
Trick or treat

Never give up
Never back down
Dance with your ghosts
For all humanity
Shivers In the streets telling you how to be
Trick or treat
We can make you stronger

Everytime we fall
Everytime we fall
Everytime we fall
Everytime we fall
