

# Heroin ( Words & Music Kjetel A Idland )

A natural wonder  
Is It gonna snow tonight  
For every snowflake  
Right In the heart of town  
Where dreams and hope can't survive  
You`re clearing your head hold tight now  
Couse monsters wont bite tonight  
Angels and demons  
Hold some nordic light  
Couse your placed right on the edge  
Sease your heroin

Looking outside  
Silenced every sound  
And homeless child  
Hold on tight keep warm tonight  
As the streets lighting up the way  
You`re holding on to something better  
To keep all your demons away  
And If you`re still afraid  
There`s a heaven above  
Couse your placed right on the edge  
Sease your heroin

Your heroin

Do you feel something going on tonight  
Carried by the wind  
Trust her she`s alright  
She`s the one  
Who takes your pain away  
She`s In your every heartbeat  
She`s the one to lay besides  
Word of a devil  
Spoken through a homeless child  
Placed right on the edge  
Sease your heroin
