

Just like a suicide (Music & Lyrics by Kjetel A Idland)

Watch as I write this In blood
Just like a suicide
Guess Im gonna paint myself In blood
Just some red Inc

Getting tired of this goddamn life
Soul Is hired & heart Is tired
Im getting ready guess Im gonna die real young

Its about let It go
Rock N Roll & smoke some diamonds
Im getting ready guess Im gonna die real young

Its just like a suicide
Written for some peace of mind
Its just like a suicide
Written for some peace of mind

Lets make another party
In my mind I cant get real tired
Getting ready guess Im gonna die real young

Watch my blood change colours
Looking down on some black & blue
Getting ready guess Im gonna die real young

Its just like a suicide
Written for some peace of mind
Its just like a suicide
Written for some peace of mind

Its just like a suicide
Written for some peace of mind
Its just like a suicide
Written for some peace of mind
Love the rush but It kills me
Only way to feel free
Its just like a suicide
Written for some peace of mind
